

# CONSERVATIVE GROWTH PORTFOLIO

OCTOBER 2024

## About the portfolio

The investment objective is to target a return that exceeds inflation (CPI) by 3.0% p.a. (net of all fees) over measurement periods of three years while also delivering a positive return over all rolling 12-month periods, noting that this outcome is not guaranteed. This portfolio has a lower allocation to growth assets, such as SA and Global equity, compared to the Balanced Growth portfolio and therefore its returns are expected to be less volatile over time.
